Need A Budget Vac With A Real Appetite?

Introducing the Vector All Vac™

In virtually any wet or dry application, All Vacs suck up rock, wood chips and shavings, sand, gravel, leaves, compost, mud, sludge, glass and debris. The possibilities are endless. Vacuum instead of shoveling, and fill a 5 cubic foot wheelbarrow in less than 3 minutes! Two people and an All Vac can do jobs better and faster than jobs normally requiring 5 or 6 people the old fashioned way!

The new All Vac II with even more power is now available.

Finally a budget vacuum with enough power to tackle rocks and debris!

The number of wet and dry applications for the All Vac is endless. With the suction power to move rock at distances over 100 feet and the blower protection to handle the dirtiest product, the All Vac meets the challenge of most applications head on.

All Vac Features--

1. Trailer with Torsion Axle Suspension, fenders and taillights. Weighs only 1,500#. Length: 165", Width: 74", Height: 96". Skid mounted models with forklift pockets and lifting eyes are optionally available. Can be moved with an ATV or lawn tractor.
2. Honda 24HP gas engine with industrial grade muffler for less than 90 db noise level.
3. Positive displacement blower with 850 CFM airflow and 200" W.G. (15" Hg) for long distance (100+ feet) vacuuming. Dual 5" inlets, on either tank side, reducible to 3" or 4".
4. Impact-resistant steel holding tank holds 5 cubic feet of material, a perfect amount for a wheelbarrow; no more, no less. Easy emptying into a wheelbarrow, trailer or skid loader.
5. Cartridge filtration for blower protection.
6. An optional "Leaf Barrel" is available that holds about 10 cubic feet for more storage, light fluffy products or products that tend to bridge in a cone.
7. Available options include vacuum hose and various "application-oriented" nozzles.
